Printing tips

- Print at **Actual size** / 100% (or "Fit" if your printer trims edges).
- Print **one side only**, so markers don't bleed through to the next picture.
- Thicker paper or light card stock works best for markers and paint pens.
- Print your favorites as many times as you like for your own family.

Coloring ideas

- Crayons, colored pencils, markers, gel pens or paint pens all work.
- Big shapes and thick lines make these pages relaxing for little hands and for grown-ups.
- Cut out finished pictures for cards, gift tags, window art or a holiday banner.
- Test your colors in the circles below first.
