2 · Photo

Click the **Drag your photo here** label and press Delete. Go to **Uploads**, upload your photo and drag it onto the grey box: it snaps in.

3 · Fit

Double-click the photo to move or zoom it inside the box. Click **Done**.

4 · Words

Double-click any text to change the greeting, your family name and the year.

5 · Save

Share › Download, choose **PDF Print** (or JPG for online print shops). Tick **Crop marks and bleed** for a print shop.

Tip: use a bright, sharp photo (from your phone is fine). Portrait photos suit designs 1 and 2, a wide photo suits design 3. You can open the same link again any time to make a fresh copy.
