Thanksgiving

Host Planner

Everything you need to plan a calm, delicious Thanksgiving: menu, countdown, hour-by-hour timeline, shopping list, seating chart and place cards.

- Menu + potluck sign-up
- Turkey guide
- Hour-by-hour timeline
- Shopping list
- Seating chart
- Place cards + food labels

Hosted by _____ *in* _____

Welcome, host

Plan it in four steps

1. **Three weeks out:** fill in the guest list, the menu and the potluck sign-up. Decide on your turkey size with the turkey guide.
2. **Two weeks out:** work through the countdown checklist and plan what you can make ahead.
3. **The week of:** write the shopping list by aisle, plan your seating and print the place cards and food labels.
4. **The day before:** fill in your own timeline and oven schedule (the sample timeline shows how), then set the table and relax.

Printing tips

- Print at “Actual size” or “100%”.
- Print only the pages you need; print the place cards and food labels on card stock if you have it.
- Pages look great in color and work fine in black and white.
- Keep the pages together in a folder or on a clipboard in the kitchen.

Turkey guide

SIZE · THAW · ROAST

How big?

Plan on about **1 lb per person**, or **1½ lb per person** if you want leftovers. (A 14 lb turkey feeds about 10–14.)

Thawing in the fridge

Allow about **1 day for every 4–5 lb**, in a pan, in a fridge at 40°F or colder.

TURKEY	DAYS TO THAW
4–12 lb	1–3 days
12–16 lb	3–4 days
16–20 lb	4–5 days
20–24 lb	5–6 days

Running late? Thaw in cold water in its wrapper: about 30 minutes per lb, changing the water every 30 minutes, and cook it right away.

Before it goes in

- Take the neck and giblets out of both cavities.
- Don't rinse the raw turkey; pat it dry with paper towels.
- Roast breast-side up on a rack in a shallow pan.

165°F

The turkey is done when a food thermometer reads **165°F** in the thickest part of the thigh, the wing and the breast. Let it rest 20–30 minutes before carving.

Roasting times at 325°F

TURKEY	UNSTUFFED	STUFFED
8–12 lb	2¾–3 hr	3–3½ hr
12–14 lb	3–3¾ hr	3½–4 hr
14–18 lb	3¾–4¼ hr	4–4¼ hr
18–20 lb	4¼–4½ hr	4¼–4¾ hr
20–24 lb	4½–5 hr	4¾–5¼ hr

Times are for a fully thawed turkey and are only a guide (based on USDA guidance). Ovens vary: start checking the temperature 30–45 minutes early. If you stuff the bird, the center of the stuffing must also reach 165°F.

Leftovers

- Refrigerate within 2 hours of serving.
- Carve the meat off the bone and store it in shallow containers.
- Eat within 3–4 days, or freeze.
- Reheat leftovers until hot (165°F).

Sample timeline

DINNER AT 3 PM · 14 LB TURKEY

Use this as a model for your own timeline on the next page. Work backward from your dinner time: rest + roast time + 45 minutes to preheat and prep the turkey.

7:30 AM	Coffee first. Read through today's timeline and oven schedule.
8:00 AM	Set out serving dishes (labeled the day before). Chill drinks.
9:30 AM	Prep stuffing to bake in a dish; peel potatoes and keep them in cold water.
10:00 AM	Preheat the oven to 325°F. Pat the turkey dry and season it.
10:45 AM	**Turkey in the oven (14 lb, unstuffed: about 3–3¾ hours).**
11:30 AM	Prep vegetables and salad. Wash up as you go.
12:30 PM	Shower and get dressed while the turkey roasts.
1:15 PM	Set out appetizers and the drinks station.
1:45 PM	Start checking the turkey temperature (aim for 165°F).
2:00 PM	Guests arrive. Put the potatoes on to boil.
2:15 PM	**Turkey out; cover loosely with foil to rest. Oven up for sides and rolls.**
2:30 PM	Make gravy from the drippings. Mash the potatoes.
2:45 PM	Carve the turkey. Warm rolls. Fill water glasses.
3:00 PM	**Dinner is served!**
4:30 PM	Coffee and pie. Pack leftovers within 2 hours.

Oven & stovetop schedule

WHO GETS THE HEAT, WHEN

The oven is the bottleneck on Thanksgiving. Write each dish in its slot (with temperature) so nothing fights for space. Slow cookers, the microwave and a grill can take the overflow.
