READ BEFORE THE PARTY

The story

Gus the turkey would very much prefer that Thanksgiving dinner is *pie*, not turkey. So he has locked the pantry with an 8-letter code and hidden the clues all over the house. The players solve 8 puzzles. Each one reveals one letter of the code. When they have all 8 letters, they say the code word to you, and the pantry (and the pie) is theirs.

Who it's for

Kids 7–12, alone or in teams of 2–4. Younger kids do great with an older helper. Plan on 45–60 minutes.

What you need

- This file, printed (pages 4–16; one copy per team)
- 9 envelopes (or folders), and tape
- Pencils, scissors for the host
- A small treat or the real pie to "unlock" at the end
- Optional: a timer, and a box or bag that closes, as the "pantry"

Printing

Print at "Actual size". Color is best (puzzle 2 uses colored leaves), but black and white works for everything else.

Set-up (15 minutes).

1. Cut out the envelope labels (page 15) and stick one on each envelope.
2. Put each puzzle page (pages 6–13) in the envelope with its number. Put the Pantry Lock sheet (page 5) in the START envelope.
3. Hide envelopes 1–8 around the room or house. Keep the START envelope and the story card in your hand.
4. Cut out the hint cards (page 14) and keep them in your pocket.
5. Put the treat in the "pantry" and keep the FINALE half of the story card with it.

How to play

1. Gather the players and read Gus's letter aloud (page 4, top half).
2. Hand over the START envelope and say "Go!" Start the timer if you like.
3. Players search for envelopes and solve the puzzles in any order. Each puzzle tells them which letter of the code they found (letter 1, letter 2…).
4. They write each letter in its box on the Pantry Lock sheet.
5. When all 8 boxes are filled, they read the code word to you. If it's right, they open the pantry and you read the FINALE.

Hints

Every puzzle has a hint card. A good rule: a team can ask for a hint after trying a puzzle for 5 minutes, or trade a hint for a silly task (gobble like a turkey, name 5 pies).

Making it easier

- Don't hide the envelopes; lay them on the table.
- Tell younger players the code is a word that means "thankful".
- Solve puzzles 2 and 7 together, out loud.

Making it harder

- Set a 30-minute timer.
- Hide envelopes inside each other: envelope 5 is only found after solving 4, and so on.
- No hint cards.

Answers are on page 16. Keep that page (and the hint cards) away from the players. Each puzzle can also be checked on its own: the letter goes in the box at the bottom of the puzzle page.

HOST READS ALOUD · CUT IN HALF

READ FIRST

Dear Thanksgiving guests,

It's me, Gus. Yes, *that* turkey. I have heard some very worrying talk about "dinner", so I have locked the pantry with my secret 8-letter code. Nobody gets dessert until you crack it!

I have hidden 8 puzzles. Each one gives you one letter of the code. Solve them in any order, write each letter on the Pantry Lock sheet, and say the word out loud. If you're clever enough, maybe I'll share the pie.

Gobble gobble (good luck),
Gus

READ AT THE END

You did it! The code was **GRATEFUL**, and that is exactly what I am: grateful you cracked it, grateful for all of you, and very grateful that this year we're having pie.

The pantry is open. Please enjoy your treat, and save me a seat at the table. I'll be the one with the feathers.

Your friend,
Gus

PUZZLE 7 OF 8 · DETECTIVE

Who Brought the Pie?

Four cousins each brought one dish to dinner. Gus wants to know who brought the pie, so he can sit next to them. Read the clues and fill in the grid: put × for "no" and ✓ for "yes".

1. Cole brought the rolls.
2. Ana did not bring the pie.
3. Ana did not bring the corn either.
4. Ben is not a baker: he did not bring the pie.

	Pie	Rolls	Corn	Salad
Ana				
Ben				
Uma				
Cole				

Tip: each cousin brought exactly one dish, and each dish was brought by exactly one cousin. When a row has three ×, the last square must be ✓.

The pie was brought by: _____

☐ **Letter 7 of the pantry code.** It's the first letter of that cousin's name. Write it in box 7.

Hint cards

HOST KEEPS · CUT OUT

Hint for puzzle 1: Pie Math

Two pies make 8, so one pie is 4. Now use the pie to find the acorn.

Hint for puzzle 2: Secret Code

Match each picture to the key one at a time. The pumpkin is T and the acorn is E.

Hint for puzzle 3: Corn Maze

Try the maze backwards: start at the PANTRY and work toward START.

Hint for puzzle 4: Mixed-Up Kitchen

Every answer is something from Thanksgiving. The first word is TURKEY.

Hint for puzzle 5: Harvest Grid

Row 3 already has a pumpkin and a leaf, so the shaded square is a pie or an acorn. Column 1 already has an acorn.

Hint for puzzle 6: Spot the Difference

Check the sky, the turkey's head, the colors and the ground. There are 6 changes.

Hint for puzzle 7: Who Brought the Pie?

Cole brought the rolls, so he did not bring the pie. Neither Ana nor Ben did. Who is left?

Hint for puzzle 8: What Comes Next?

Row A counts up by 2. Row B counts down by 1. Row C counts down by 2.

Answer key

HOST ONLY

1 = G Pie = 4, acorn = 2, leaf = 1. Pie + acorn + leaf = 7, and 7 = G.

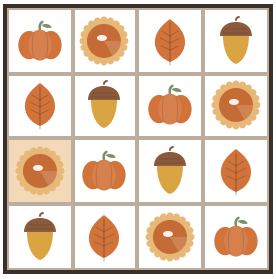

2 = R The note says LETTER TWO IS R.

3 = A The path collects A-U-T-U-M-N (AUTUMN). First letter: A.

4 = T TURKEY, OVEN, ACORN, STUFFING, THANKS. Shaded letters spell TOAST. First letter: T.

5 = E The shaded square (row 3, column 1) is the pie, and pie = E.

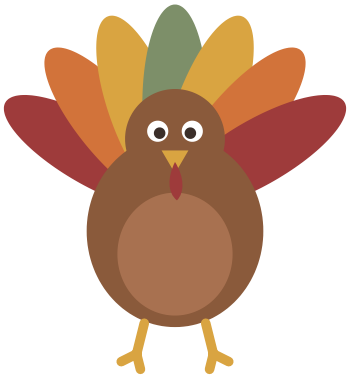

6 = F 6 differences: sun, middle cloud, red leaf and acorn are missing; the turkey wears a hat; the pumpkin is yellow. 6 = F.

7 = U Cole: rolls. Ana: not pie, not corn, so salad. Ben: not pie, so corn. Uma brought the pie: U.

8 = L A = 8, B = 7, C = 3. 8 + 7 - 3 = 12, and 12 = L.

The code word: G R A T E F U L
