Your 5 files

PDF **Start Here** (this page)

ZIP **US Letter zip**: the 7 printables as PDFs, 8.5 x 11 in (USA, Canada)

ZIP **A4 zip**: the same 7 PDFs in A4, 210 x 297 mm (most other countries)

XLSX **Gift & Budget Tracker**, blank, ready for your list

XLSX **Tracker example**, filled in so you can see how it works

TIP You only need the zip for your paper size.

Good to know

- **Opening a zip:** on a computer, double-click it (Windows: right-click, "Extract All"). On iPhone, tap it in the Files app; on Android, open it in Files by Google.
- **Printing:** print at "Actual size" or "100%", not "Fit". Card stock is best for cards, tags and badges; color printing is best for the escape room.
- **Print only what you need.** You don't have to print every page; pick the games and pages you want.
- **Fillable PDFs** (Letter from Santa, Secret Santa): open them in the free Adobe Acrobat Reader to type in the boxes, then print. You can also print them blank and write by hand.
- **Spreadsheet:** in Google Sheets, open sheets.google.com and choose File > Import > Upload; in Excel, just open it. Then follow the Start Here tab.
- For personal use only. Please don't share or resell the files.

Merry Christmas, and thank you for shopping small!
